GRIZZLYHACKS@ GGC

PRESENTS:

HACKGGC FALL 2025 LET'S HACK!

BUILD. COMPETE. CONNECT. WIN

"BUILD SOMETHING AMAZING"

HACKGGC FALL 2025 IS A 12-HR TECH CHALLENGE WHERE CREATIVITY MEETS INNOVATION - OPEN TO ALL SKILL LEVELS!

OCTOBER 25, 2025
BUILDING B - BELONGING CENTER,
GEORGIA GWINNETT COLLEGE

PRESENTED BY
GRIZZLY HACKS @ GGC

GRIZZLY HACKS

HackGGC is ran by GrizzlyHacks @ GGC. The purpose of GrizzlyHacks @ GGC is to provide a means for students to increase participation in technology skill-building activities by organizing workshops, helping students to gather, participate in, and organize hackathons. The club is not exclusive to ITEC students and is open for beginners and technology enthusiasts.

WELCOME HACKERS!

EVENT HIGHLIGHTS

Coding Challenges

Test your programming and problem-solving skills with real-world challenges that push your creativity and technical thinking. Collaborate with peers to build something impactful.

Capture the Flag

Join the ultimate cybersecurity showdown! Compete to solve puzzles, decode vulnerabilities, and "capture" digital flags in a safe, hands-on environment. Learn new tools while leveling up your security skills.

Workshops

Gain valuable hands-on experience with expert-led workshops throughout the day. Learn How to:

- Build & Deploy AI Apps
- Visualize data in PowerBI
- Strengthen your Data Structures & Sorting foundations

Scavenger Hunt

Crack codes, decode hidden clues, and explore the event space to earn bonus points and prizes! This interactive challenge encourages collaboration and keeps the energy high throughout the event.

HACKGGC FALL 2025

TRACKS - CHOOSE YOUR CHALLENGE!

CAREER COMPASS - EMPOWER STUDENTS TO TAKE CONTROL OF THEIR CAREER JOURNEYS
Design apps that connect students, clubs, clubs, and peers across campus.

SMARTBIZ ANALYTICS - TURN DATA INTO DECISIONS
Help small businesses or campus organizations visualize performance insights.

AI STUDY BUDDY - MAKE LEARNING SMARTER AND MORE PERSONAL
Build AI tools that adapt to different study habits or learning styles.

CYBERSHIELD - SIMPLIFY DIGITAL SECURITY
Protect users and organizations through innovative, accessible cybersecurity solutions.

OPEN INNOVATION - YOUR IDEA, YOUR IMPACT
Bring any creative, tech-based solution that inspires you.

RULES!

- Teams up to 3 people
- All projects must be create at the event (no previous projects)
- Join Discord for Instructions / updates
- Go to the mentor's table for help if you are stuck
- Submit by 4pm to Devpost
- Present projects live to judges

TEAM FORMATION

- Share:
  - Name
  - Major/Minor
  - Year
- An interesting fact about you
- Take time to play 2 truths and 1 lie
- We can briefly share an interesting fact

WORKSHOP #1

BUILD & DEPLOY AI APPS

HOSTED BY: DR. GUNAY
TIME: 10:00 AM - 11:30 AM
LOCATION: ROOM B-1600

OVERVIEW:
Build an AI-powered app, starting from a simple translator example. The Hugging Face AI repository will be used to run AI models via a custom front-end on the cloud versus locally, allowing you to have access to an immense repository of AI models to choose from to develop your own app.

KEY TAKEAWAYS:
- Introduction to Hugging Face models, datasets, spaces.
- Integrate simple AI logic or API calls into your app.
- Learn collaboration between front-end and data models.

WORKSHOP # 2

ARDUINO BASICS WORKSHOP: BLINKING YOUR FIRST LED

HOSTED BY: ERIC
TIME: 12:30 PM - 2:00 PM
LOCATION: ROOM B-1600

OVERVIEW:

- Dive into the basics of Arduino and hands-on electronics by learning how to make your first LED blink.
- This beginner-friendly workshop introduces programming microcontrollers, circuit design, and how hardware and software work together to bring ideas to life.

KEY TAKEAWAYS:

- Understand the fundamentals of Arduino and microcontrollers.
- Learn how to build a simple LED circuit using a breadboard and resistors.
- Write your first Arduino program (sketch) to make an LED blink.
- Explore how code controls hardware through digital pins.
- Gain confidence to experiment with more complex Arduino projects.

WORKSHOP # 3

POWER BI FOR DATA INSIGHTS

HOSTED BY: KRISHAN
TIME: 2:00 PM - 3:00PM
LOCATION: ROOM B-1600

OVERVIEW:
Learn to transform raw data into visual, actionable insights using Microsoft Power BI. This workshop focuses on building dashboards, analyzing trends, and presenting results in a business-friendly format.

KEY TAKEAWAYS:
- Import and clean datasets for visualization.
- Create dynamic dashboards and KPI reports.
- Understand data modeling and relationships.
- Apply data storytelling techniques for presentations.

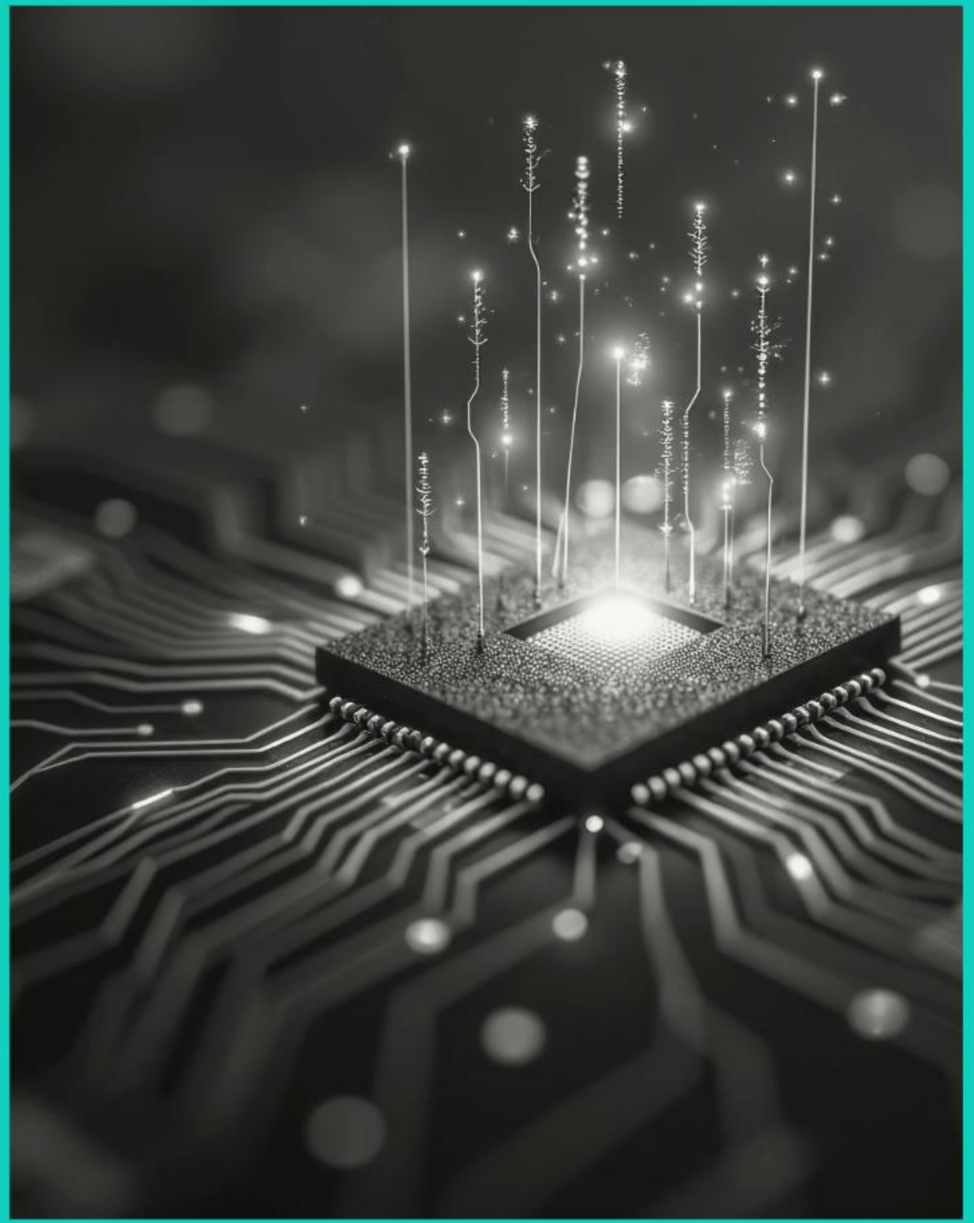

WORKSHOP #4

SORTING ALGORITHMS DEEP DIVE

HOSTED BY: ERIC
TIME: 3:00- 4:30 PM
LOCATION: ROOM B-1660

OVERVIEW:
A hands-on coding session exploring advanced sorting techniques and their applications in competitive programming and software performance optimization.

KEY TAKEAWAYS:
- Compare performance between sorting algorithms.
- Understand when to use quicksort, mergesort, or heapsort.
- Code examples and live sorting demonstrations.
- Optimize data handling in larger applications.

HACKGGC FALL 2025

SCHEDULE

MORNING
9 AM - 11 AM

CHECK-IN & BREAKFAST

TIME: 9:00 AM - 9:30 AM
LOCATION: B-1000 (BELONGING CENTER)

OPENING CEREMONY

TIME: 9:30 AM - 10:00 AM
LOCATION: B-1000
HOSTED BY: ORGANIZING TEAM

CAPTURE THE FLAG

TIME: 10:00 AM - 5:00 PM
LOCATION: B-1700
HOSTED BY: CYBERSECURITY TEAM

WORKSHOP #1 - BUILD & DEPLOY AI APPS

TIME: 10:00 AM - 11:30 AM
LOCATION: B-1600
HOSTED BY: DR. GUNAY

MIDDAY
11 AM - 2 PM

LUNCH BREAK

TIME: 11:30 AM - 12:30 PM
LOCATION: B-1000
HOST: FOOD & CATERING TEAM

WORKSHOP #2 - ARDUINO

TIME: 12:30 PM - 2:00 PM
LOCATION: B-1600
HOST: ERIC

SCAVENGER HUNT BEGINS

TIME: THROUGHOUT THE EVENT
LOCATION: BUILDING B
HOST: BINTA & SHANTERIA

AFTERNOON
2PM - 4PM

WORKSHOP #3 - POWER BI

TIME: 2:00 PM - 3:30PM
LOCATION: B-1600
HOST: KRISHAN

WORKSHOP #4 - SORTING ALGORITHMS

TIME: 3:00 PM - 4:30 PM
LOCATION: B-1600
HOST: ERIC

EVENING
4PM - 5PM

PROJECT DEMOS & JUDGING

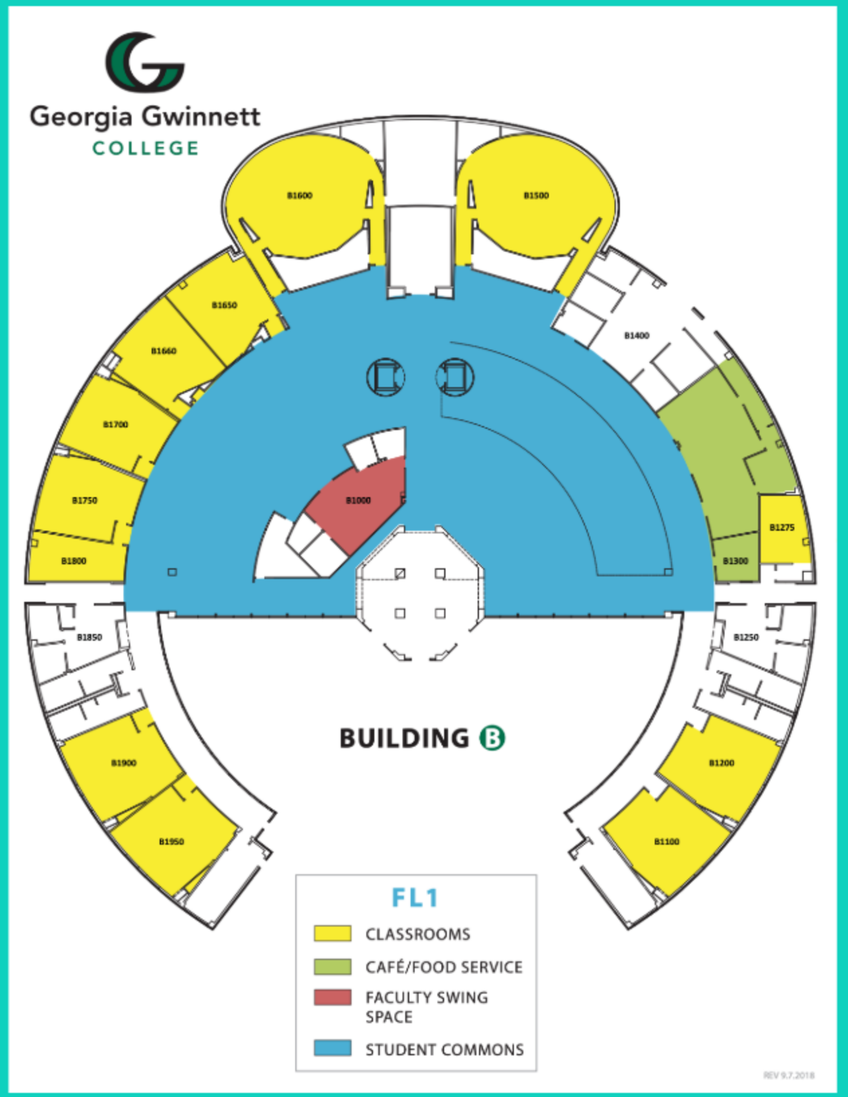

TIME: 4:30 PM - 5:00 PM
LOCATION: B-1000
HOST: JUDGES & ORGANIZING TEAM

CLOSING CEREMONY + AWARDS

TIME: 5:00 PM - 5:30 PM
LOCATION: B-1000
HOST: GRIZZLYHACKS @ GGC

BELONGING CENTER

MAP (BUILDING B)

PROJECT SUBMISSIONS

ELIGIBILITY

In order to be eligible to participate, you must be a GGC student or have had pre-approval from an organizer to participate.

You must be 18 years old or older.

SUBMISSION REQUIREMENTS

Your project must be started when the hacking period begins.

This means you can not use a project that has already been submitted to another hackathon or that you started working prior to this hackathon.

Devpost

HACKGGC FALL 2025

SPECIAL THANK YOU!

CLUB OFFICERS:

PRESIDENT - LATOYA
VICE PRESIDENT & DIRECTOR OF HACKATHON - SHANTERIA
TREASURER - BINTA
SECRETARY - CLAUDIO
COMMUNICATION MANAGERS - MATTHEW & BINTA

CLUB ADVISORS - DR. GUNAY & DR. ANCA
